STREET PAVING WORK TO START ON MCKINLEY STREET AND GRANT PLACE

Paving work will be starting on July 27, 2012, on **McKinley Street** from Green Tree Road to 10th Avenue and on **Grant Place** from 11th Avenue to 10th Avenue in West Bend.

The work consists of placing some pavement to shape and level the road, adjusting manholes and valve boxes; and finally placing a new layer of asphaltic concrete pavement onto the existing pavement. The project is expected to be completed within two work days, weather permitting.

The streets will remain open to traffic during the construction but may be restricted to one lane at various times. Motorists are asked to exercise caution, observe construction signs, obey flagmen, and be alert for heavy construction equipment, while work is in progress. Alternate routes should be selected if possible.

Payne & Dolan, Inc., of Waukesha, Wisconsin, will be doing the work under contract with the City of West Bend.
