INFLATABLE SWIMMING POOL PERMITS

1. All pools of 1,000 gallons or more capacity shall require a building permit from the Building Inspector.

2. A Plat of Survey may be required showing the proposed pool location. If the pool is taken down at the end of the season, it should be installed at the same location each year.

3. Inflatable pools are not permitted in front yards. No Inflatable pool shall be located closer than 6 feet to the side or rear lot lines. They shall be located 10 feet horizontally from overhead electrical service conductors, have 22.5ft clearance from the water level to overhead electrical service conductors, and 5 feet horizontally from an underground service lateral.

4. Cord connected pool filter pumps must be provided with a GFCI that is an integral part of the attachment plug or located in the power supply cord within 12 inches of the attachment plug.

5. Measures should be taken to prevent entry of the pool when not in use.

6. Permit Fee is $35.00.

This procedure is to provide safe installation guidelines for owners of inflatable pools.
